

ASSEMBLING INSTRUCTION FOR GASKET - CODE: 8700012 (KIT CODE: 4000029)

Attention! This instruction is for Lelit authorised technicians only

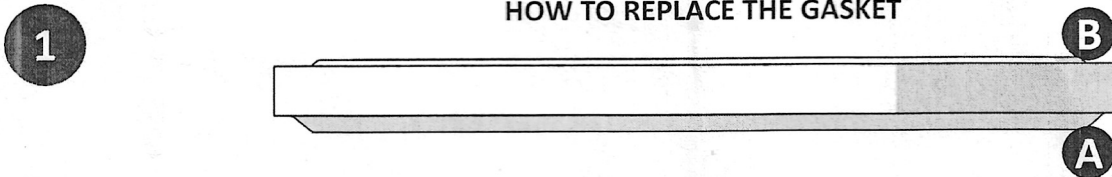

Before starting the procedure, make sure that the machine is disconnected from the electrical mains and that it is not at high temperature to avoid risk of burns.

THE KIT INCLUDES

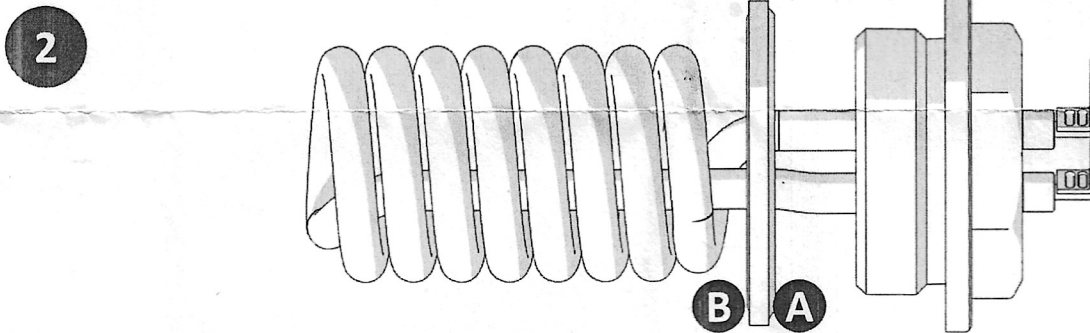

1. GASKET (8700012)

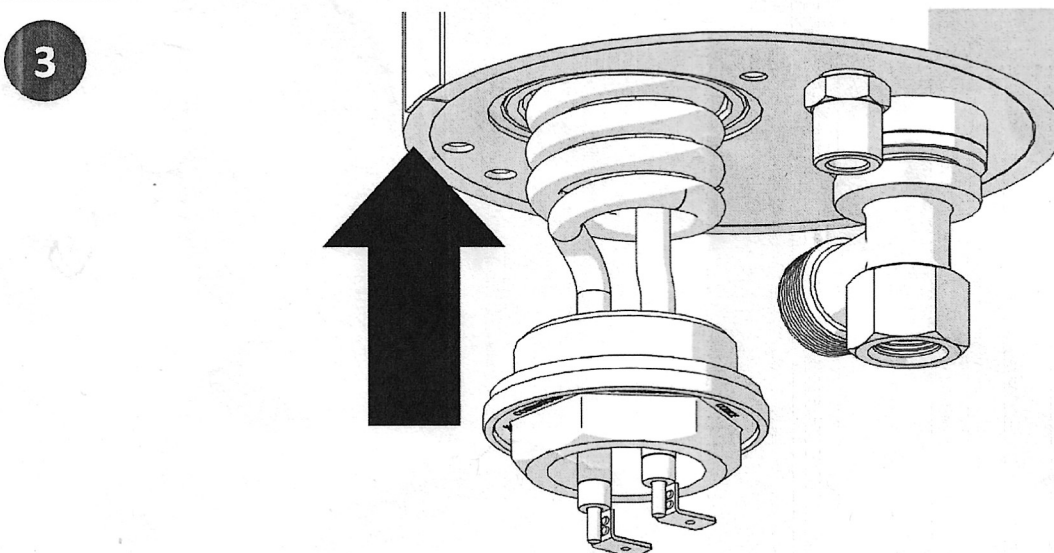

HOW TO REPLACE THE GASKET

As you can see from the image above, there is one guide for each side of the gasket. The guide (A) is more prominent than the other.

As you can see from the picture above, the side of the gasket with the most prominent guide (A) must be inserted facing the heating element, in the opposite groove.

Finally you can replace the heating element.
